(U) NDNG Dakota Access Pipeline Protest (NGB NGCC): NDNG's 191st MP CO has been activated to support Morton and Burleigh Counties during a protest planned on the border of Morton County and the Standing Rock Tribe at the request of the North Dakota Highway Patrol. The 191st MP CO will provide 36 soldiers to assist the ND Highway Patrol with Traffic Information Points and provide planning support to the EOC and transportation for the Law Enforcement Quick Response Team. The protest is planned to take place at the Bismarck State Capital from 1500-1800 CDT on 09 SEP 16. The 191st MP CO has a "be prepared to support" mission to provide the city of Bismarck with 6 buses with drivers. In coordination with the J34 NGCC will continue to monitor and provide updates as necessary. Source: NGCC

(U) CONG Pitkin County SAR: On 08 SEP 16, CONG assisted with the search and rescue of two injured hikers near Snowmass Mountain in Pitkin County, CO. The CONG provided 1 UH-60 aircraft and 4 personnel. After reaching the hikers, the aircraft and crew were able to fly them to a nearby airport where they were received by civilian medical personnel for transport to a local hospital. The aircraft and crew have now returned to home station and no further National Guard involvement is anticipated. Source: NGCC

Illinois: Normal Operations

Indiana: Normal Operations

Michigan: Full Activation (Flint Water Emergency)

Minnesota: Normal Operations

Ohio: Normal Operations

FEMA Items of Interest:

(U) At Least 20 Homes Affected, \$50K in Damage To Roads Reported In Richland Co. WI Due To Flooding (WKOW): Richland County officials say the hardest hit areas near Yuba saw more than seven inches of rain since. While the levels further north have gone down significantly, according to county officials, the levels further south went up during the day Wednesday. An emergency services spokesman estimates the flooding has caused between \$50,000 and \$60,000 worth of damage to county roads. However, being that many are still under water, the spokesman says that estimate could climb significantly depending on what they see once the water recedes. County officials say between 20 and 30 homes have been affected by the flooding. In the town of Yuba, firefighters had to pump out six homes Wednesday morning. They also helped several others lay down sandbags to keep the flood water at bay. Sheriff's officials say portions of Highway 56 near Viola and county Highway C near Yuba flooded and crew placed sandbags along the Pine River. Richland Center schools are closed Thursday because of flooding. The Richland Center School District said early Thursday morning it had canceled classes as

flooding concerns continue. Meanwhile, the Richland County Sheriff's Office said Highway 80 in Richland County is still closed because of water on the roadway. The sheriff's office doesn't know when it might reopen. Source: <http://bit.ly/2cfUzef>

(U) Damage Reported at Minnesota National Guard Camp in Fort Ripley after Tornado (WJON): The National Weather Service (NWS) said Thursday it was a tornado that caused extensive damage in Fort Ripley at the Minnesota National Guard's Camp Ripley. Storms knocked down roofs, trees and damaged vehicles throughout the garrison areas of the National Guard's Camp Ripley Training Center on Wednesday. The NWS says a damage survey was conducted to investigate the damage that occurred on Wednesday night, including at Camp Ripley. It was concluded to be a weak tornado of EF-1 rating. The Minnesota National Guard says storm cells passed through Morrison County just after 10:00 p.m. local time. Several buildings used for housing, training and maintenance received major damage. There was also heavy damage to the nearly completed solar garden that was set to be dedicated this week. The dedication has now been postponed until further notice. Minnesota Power, which is building the facility, said in a news release that 25 percent of the 97 rows of solar panels sustained damage, including twisted and broken racks that hold the panels in place, broken panels and damaged wiring. The \$25 million project is the largest solar power plant on any National Guard base in the nation, covering an area about the size of 62 football fields. There were no injuries from the severe weather. Damage assessments are continuing through Thursday. Source: <http://bit.ly/2chThz9>

(U) New DHS, FBI Bulletin Warns of ISIL-Inspired Threats against Civilian Venues in U.S. (Fox News): There is a new warning that Islamic State (ISIL)-inspired terrorists may possibly target stadiums and sports venues, media reported Thursday. It comes just days before the 15th anniversary of 9/11 and as the National Football League opens the regular season this week. This latest warning appears to be an update to a National Terrorism Advisory System Bulletin that was issued at the beginning of this summer advising that ISIL extremists were being inspired to launch attacks inside the United States. In just the past few days, the Department of Homeland Security (DHS) and the FBI have sent a new bulletin to law enforcement going into more detail about where those attacks may be launched. It says homegrown ISIL-inspired terrorists have now shifted their focus away from government and military targets and towards civilian venues such as stadiums, arenas, concert venues and music festivals. It goes on to point out that in the past 12 months, 75 percent of homegrown violent extremist attacks, such as the Pulse nightclub shootings in Orlando, have focused on civilian targets. Law enforcement officials who spoke with media said they are familiar with this bulletin and they are working closely with the professional sports leagues. However, they did not want to go into detail about any additional security steps they are taking. Source: <http://bit.ly/2chQO88>

CURRENT NATIONAL GUARD CIVIL SUPPORT OPERATIONS

(U) WING Severe Weather Support: On 10 SEP 16, WING flood support in  
Northern WI that began 13 JUL 16 ended. At the height of the operation  
WING provided 78 personnel and multiple pieces of engineering  
equipment. The WING conducted debris removal and road repair projects  
in support of local authorities. All personnel and equipment have returned  
to home station. Source: WI-JOC

(U) CONG Search and Rescue: On 10 SEP 16, the CONG responded to a  
request from the Air Force Rescue Coordination Center to provide  
assistance with a Search and Rescue (SAR) of a missing 45-year-old male  
hiker in Chaffee County, CO. The CONG provided 4 ARNG personnel and  
1 UH-60 aircraft. The UH-60 inserted 2 civilian SAR teams near Mt. Yale  
and Mt. Princeton. The hiker was not located and the mission was  
terminated. All personnel and equipment have returned to home station.  
Source: NGB-NGCC

(U) ORNG 142nd FW EOD Support: On 09 SEP 16, the ORNG's 142nd FW  
EOD assisted Oregon State Police to identify, transport, and dispose of a  
WW I era 7.58 cm Minenwerfer Mortar. Four personnel and 1 EOD truck

responded, retrieved the device and transported it to home station for later disposal. All personnel and equipment returned to home station.  
Source: NGB-NGCC

(U) NDNG Dakota Access Pipeline Protest: On 09 SEP 16, the Governor of North Dakota activated the NDNG ahead of a US District Judge's decision Friday that could inflame protestors who have been gathered here for weeks in an effort to a block pipeline project. The 191st MP CO is supporting with 126 personnel. Source: NGB-NGCC

(U) CANG Wildfire Support: As of 31 AUG 16, the CANG wildfire support mission has ended. At the height of the operation CANG provided 441 personnel, along with aviation and vehicle assets to respond to multiple wildfires within the state. All equipment and personnel have returned to home station. Source: NGB-NGCC

(U) Coast Guard Closing River to Free Barge: The U.S. Coast Guard is overseeing salvage operations of 4,800 tons of anhydrous ammonia from a barge on the Mississippi River that ran aground Sept. 3 near Campbell's Island, East Moline. Kirby Inland Marine will transfer the ammonia from Barge 20851, if necessary, to ensure the vessel can safely be refloated. Locks and Dam 14 and 15 will be closed to traffic during operations, according to a media release from the U.S. Coast Guard. The Coast Guard encourages the public to stay away from the area. Anyone in the area who smells ammonia should go inside immediately, turn off air conditioning and call 911. A towing vessel named Zeus heading south was pushing two barges when the incident occurred. The Coast Guard freed one of the barges, but the others remained grounded at Mile Marker 491, about 1,000 yards off Campbell's Island. The barge, which was not leaking, is outside the Mississippi's navigable channel and not impeding river traffic, a Coast Guard spokesperson said. Source: [http://qctimes.com/news/local/coast-guard-closing-river-to-free-barge/article\\_9c7d54a9-7493-5941-81cc-c937e37143e0.html](http://qctimes.com/news/local/coast-guard-closing-river-to-free-barge/article_9c7d54a9-7493-5941-81cc-c937e37143e0.html) >

(U) Flint's Pipe Replacement Program Moves into Third Phase (Michigan Radio): Flint's mayor hopes to replace the city's one thousandth lead service line by the end of the year. Mayor Karen Weaver says phase 3 of her Fast Start pipe replacement program will target nearly 800 homes in the next two months. That's on top of the more than 200 pipes replaced to date. Pipes connecting Flint homes to city water mains are a prime source of the lead contamination in Flint's tap water. The city has enough money to replace another 4,000 pipes next year. But Weaver says Flint needs more help, especially from the federal government. Source:

(U) Hundreds of O'Hare Airport Workers Vote to Strike (5 NBC Chicago):

Hundreds of O'Hare International Airport workers have voted to go on strike ahead of the Thanksgiving holiday. Service Employees International Union Local 1 officials said Thursday that about 500 workers have committed to strike. Union spokeswoman Izabela Miltko-Ivkovich said the strike "will definitely take place in the coming days," though she didn't specify which day it will start. "They don't expect to shut the airport down," SEIU Local 1 President Tom Balanoff said, according to the Chicago Sun-Times. "That's not what they're trying to do. Oh, there will be disruption." The workers who plan to strike include baggage handlers, cabin cleaners, janitors and wheelchair attendants. They are seeking a \$15 per hour wage. It wasn't immediately clear how such a strike would affect operations at O'Hare, which is one of the nation's busiest airports. The Chicago Department of Aviation said in a statement that it doesn't anticipate any disruption in service.

(U) Ameren Illinois Worker Killed in Canton Gas Explosion Identified (ABC 7

News): Authorities on Thursday were investigating the cause of a gas explosion that rocked downtown homes and businesses in a central Illinois community, shattering glass and cracking interior walls in nearby buildings and killing one person and injuring several others. The blast Wednesday evening in Canton, which is 150 miles southwest of Chicago, happened while utility workers were trying to fix a gas leak that a contractor apparently caused while digging, officials said. Ameren Illinois said its crew had turned off the gas and was beginning to make repairs when the explosion happened. Investigators are still trying to determine what ignited the blast. The explosion killed one of the Ameren workers. Authorities said there were a total of 12 people who were taken to hospitals, though it wasn't immediately clear if that included the worker who died.
